AMAN KUMAR THAKUR

CAREER OBJECTIVE

Enthusiastic and skilled Full-Stack Web Developer with 1 year of experience in Front-End Development and 1 year of UI Automation Testing expertise, seeking a challenging role to leverage my web development skills and contribute to innovative projects.

SKILLS & ABILITIES

Technical Skills : HTML, CSS, JS, React.js, Node.js, Java, C#

Additional Skills :

Selenium

Version control with Git

User interface (UI) design principles

EXPERIENCE

Worked as Software Engineer in **VALUE MOMENTUM Software Services, Hyderabad** from Jan 2021 to July 2023.

Roles and Responsibilities:

Front End Development:

- Collaborated with cross-functional teams to design, develop, and maintain responsive web applications.
- Created visually appealing and user-friendly interfaces using HTML, CSS, and JavaScript.
- Leveraged React to build dynamic and interactive web pages, improving user engagement.
- Ensured consistent cross-browser compatibility and responsive design for optimal user experience.

UI Automation Testing:

- Developed and maintained UI automation test cases using Selenium.
- Run the Test cases in Azure CICD and provide the results (Test Data) to the Functional Team.
- Log Bugs if any Code breaks observed during the executions.

EDUCATION

Bachelor of Technology in Electronics and Communication Engineering from Guru Nanak Institutions with 8.8CGPA.
